Battery Replacement Instructions

Remove the battery cable terminals:

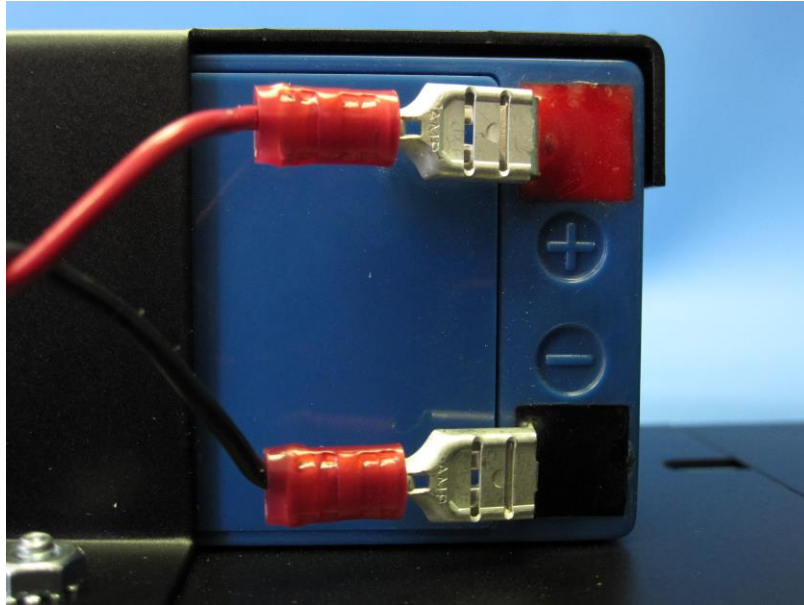

Remove the 4-40 locknuts and battery bracket:

ProTalk Cv3

Battery Replacement Instructions

After replacing the battery, refasten the battery with the bracket and reconnect the cable terminals as follows:

The red wire must match the red terminal (+) and the black wire the black terminal (-). *Failure to connect the battery properly could damage the Cv3.*

Reassemble the unit.

Note:

We have replacement batteries in stock, but if you'd like to purchase a replacement elsewhere, the part # is:
